ECON 2220 Principles of Economics: Macro  
ECON 3200 Economic Theory: Micro  
or  
ECON 3220 Economic Theory: Macro

### *Economics Electives*

21 Credit Hours

## ECONOMICS AS A MAJOR

---

Economists are employed by private businesses, financial institutions, government at all levels, educational institutions, not-for-profit organizations, and research institutions.

Economists forecast future revenues and costs and analyze competitive market conditions for businesses.

Economists make recommendations involving capital investments, marketing of new products, health care financing, and the effects of government regulation on businesses.

Economists do cost/benefit analysis of proposed legislation and public-sector projects, and give advice to local, state, and federal politicians.

Economics is an excellent major for law school.

Economics is a superb preparation for graduate work in areas such as financial management, marketing, international relations, public administration, and political science.

Economics is also an excellent dual major or minor for other areas of study as international studies, history, political science, and any of the areas in business administration.

## SCHOLARSHIPS FOR ECONOMICS MAJORS

Barbara Miller Memorial Scholarship (Full-time Senior)

Barbara Miller Memorial Scholarship (Full-time Junior)

Bun Song Lee Scholarship

James C. Horejs Scholarships

Union Pacific Economics Scholarship

CBA Economics majors may also apply for CBA scholarships.
